A novel entrance was made by the burglars who entered the jewelry store of charles A. Berg, 211 San Francisco street, some time Monday night and looted the place of several hundred dollars worth of jewelry. The haul consisted of rings, watenes, and other articles of jewelry. The entrance was made through the manhole in the side-walk in front of the building. The manhole on ordinary occasions is used as a coal chute. It connects with the busement of the building in which the jewelry store is located. A stairway leads from the basement to the rear door of the jewelry store. After looting the place the burglars had crawled out of the hole again, and evidently had hurled a brick against the plate glass window of the jewelry store. The glass was broken.

Chicken Thieves Are Active.

Chicken thieves were busy Monday night. The Texas Produce company, 700 South Santa Fe street, was broken into some time Monday night and a number of turkeys, chickens and several cases of eggs were taken. Three negroes, Walter Hardin, known as "Pork Chops," Harry Lee and Ed Johnson were arrested by the police and charged with burglary by complaint filed in Judge E. B. McClintock's court. "Pork Chops," "Dad" Warnock said, was sitting in the doorway of his home in the southern section of the city when he drove up to it in the patrol wagon. Warnock said that the negro was picking a turkey. "Dis bird belongs to the restaurant man I works for," the negro told the officers. "I don't know nothin' about any burglary." M. M. Standard Shares Barely Move and Price Changes Are Insignificant.

NOTE Quetations reflect closing sales Tuesday, Npril 7.

New York, April 7.—Trading during the morning was the slowest of any day of the year and price changes were insignificant. Only 41,290 shares were dealt in during the forences sension.

Holders of stocks were not affected by the depression of the speculative sentiment, ligt uncertainty of the outlook effectually prevented extensive luging. The trading element abandoned efforts to put up prices, owing to revival of liquidation in stocks of companies undergoing reorganization or facing other financial difficulties.

Standard shares harely moved, although firmness was shown in the grain care owing to the expectation of an acceptionally strong showing in the government report. Bonds were steady.

Some of the shorts manifested uncasiness after the publication of the grap figures, and their buring carried prices another fraction upward. St. Pau, Northern Pacific and International Harvester were the strong tensor.

The market failed to hold the speculative interest aroused by the brilliant crop report and gradually worked back into the apathetic state displayed in the morning.

The market closed standy. Selling from speculative sources weakoned the general list a trifle in the late dealings. Activity in Lordinard, when it went up 24 points, strengthened the other tobacco shares, which were two noints or more. rose two points or more.
